

BIOGRAPHY

Mr. Mark A. Powell
Adjunct Professor
Stevens Institute of Technology

Biography:

Mark Powell has spent over 30 years in DoD, NASA, DOE, and commercial environments as consultant, project manager, engineering manager, chief systems engineer, and research scientist. He currently is a member of the Systems Engineering faculty at Stevens Institute of Technology, and is a Technical Director for Futron Corporation. As an active member of the International Council on Systems Engineering, he is the chairman of the Risk Management Working Group, and participates in the Education and Research Technical Committee and Technical Visions Committee. Mr. Powell is also active in Sigma Xi, and the International Society for Bayesian Analysis.
